

# Sleights and Sandsend Medical Practice

## Travel clinics – Information for Patients

The travel advice service has been reviewed to help enable the Practice to concentrate on NHS core services with the continued pressures of staff resources and increased workload. Travel advice will need to be obtained from a private travel clinic. These clinics usually require appointments to be booked in advance. Most travel vaccines have to be paid for privately.

There are a few vaccines that are covered on the NHS. These include: Hepatitis A, Diphtheria, Tetanus and Polio (3 in 1 combined), Cholera and Typhoid. We would be able to administer these for you free of charge as long as you have had a full travel assessment at a clinic and have a copy of the travel assessment paperwork available for us to see. We can also organise and dispense any private prescriptions for antimalarial tablets if recommended by the travel clinic.

Below is a list of some of the nearest travel clinics:

### Boots Travel clinics

These can be booked by going to [www.boots.com](http://www.boots.com), searching for travel, and then filling in the relevant information. In many cases, injections can be given the same day as the travel clinic. Bookings can be confirmed by phone on the numbers below.

<b>Boots Middlesbrough</b> One Life Medical Centre, Linthorpe Rd, Middlesbrough TS1 3QY	<b>Boots Scarborough</b> 100-101 Westborough Scarborough YO21 1LN
---	---
